ASK A LIST MAKER

In what areas do you expect to see commercial construction projects happening in the next two years?

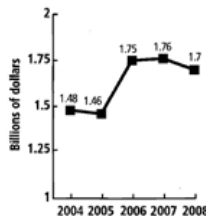

"I see continued construction activity in the multifamily arena as it pertains to student housing, senior living facilities and affordable housing through state tax credit programs and loan guarantees by the federal government (Department of Housing and Urban Development). We are also seeing future new market-rate apartment projects being financed with offshore equity."

Robert Fleckenstein
President/Summit Contractors Group Inc.

GROWTH INDUSTRY

The total annual revenue of the top five general contractors on the list has grown 14 percent in the past five years and dipped only slightly last year.
