Top Contractors

2010

For the first time, this year's Top Contractors list includes not only this year's ranking for each firm, but each company's position of a year ago.

Also, a sign of the times hit one of the firms included in this year's Top Contractors ranking, Keene Construction. Officials with the contractor submitted the company's 2009 revenue information prior to the firm announcing in March that it was closing its operations, based in the Orlando area. *Southeast Construction* has included that firm in this year's ranking, with a note indicating the contractor's ceasing of business operations.
