Ponte Vedra United Methodist Church completed

LandSouth Construction announces construction is complete on the new Ponte Vedra United Methodist Church on South Roscoe Boulevard in Ponte Vedra Beach. According to Ponte Vedra United Methodist Church Pastor Jeff Bennett, the church is currently being furnished.

The Jacksonville-based general contracting firm served as construction manager on the new 15,096-square-foot facility that features a large sanctuary, teen activity center, nursery, preschool and Sunday school classrooms, catering kitchen and administration offices. The church also features an outdoor children's playground, memory garden, additional parking, covered entry and open courtyard.

"We worked closely with the church leadership and congregation on this new worship center and are pleased to announce its completion and opening," said James Pyle, president and CEO of LandSouth Construction and member of the church's advisory committee. "The church is an important part of the local community and we were honored to be part of the team involved in the construction of the new facility."

LandSouth Construction served as the construction manager on the worship facility, EC Kenyon as the general contractor, and Ronald Scalisi Architects P.A. as the architect.
